Subject: Geotechnical Investigation
Proposed Aircraft Hangar
Hurricane Airport
800 West 2300 South Street - Hangar Number 13S 4E
Hurricane, Utah
GTS Project Number: 12960

Dear Mr. Young:

This letter presents the results of our geotechnical investigation conducted at the site of the proposed aircraft hangar to be constructed at the above noted address. The purpose of our investigation was to provide information on subsurface soil and groundwater conditions, recommendations for foundation types and depths, soil bearing capacities, anticipated total and differential settlement, and other design and construction considerations influenced by the subsurface conditions. We have previously performed geotechnical investigations other hangars at the Hurricane Airport. Information from the previous investigations was used as part of this report.

We understand that an aircraft hangar is planned for construction on the property. The hangar will likely be a steel frame building constructed at grade. A basement is not planned. Minimal cut and fills are anticipated to bring the site to the proposed grade.

The hangar building pad area is rectangular in shape, and was vacant at the time of our investigation. The ground surface across the building area is level and flat. Surface drainage appeared to be fair. At the time of our investigation, the area was void of vegetation. The site is bound by undeveloped land to the south, by single family residences to the east, and by existing aircraft hangars to the north and west.

To investigate the subsurface soil conditions, one, 21.5-foot deep test hole was drilled near the proposed building area. The location of the test hole, in relation to the property limits, is shown on the Site Plan, Figure 1. The subsurface soils encountered in the test hole consisted of loose to dense, silty, gravelly SAND (SM) to the maximum depth of exploration, 21.5 feet. Groundwater was not encountered in the test hole at the time of our investigation. Please refer to Figure 2 for a detailed description of the soil conditions encountered in the test hole location. Figure 3 is the key to symbols and abbreviations used on our Test Hole Log.

Disturbed and undisturbed samples were collected, and returned to our laboratory for testing, and to confirm field classification. Swell-consolidation test performed on a samples collected from depths of 8.67, 16.17, and 21.17 feet collapsed 0.5, 0.8 and 4.5 percent, respectively, when saturated under a constant load of 1,000 psf. These test results indicate a low to high potential for hydro-collapse. Based on the loose condition and results from previous investigations for nearby hangars, the soils in the upper 5 feet are highly collapsible.

The area under the buildings should be further undercut to allow for a minimum of 5 feet of structural fill below the footings and slab or 6 feet below the existing grade, whichever is greater.

Undercutting should extend a minimum of 5 feet beyond the limits of the footings. Following undercutting, exposed subgrades should be scarified to a depth of 12 inches, moisture conditioned, and compacted to a firm non-yielding surface. Pockets of soft soils detected during the recompaction of subgrade should be removed and replaced with structural fill.

Structural fill should be placed up to required grades in 8-inch maximum loose lifts, at the moisture content optimum for compaction, and compacted to at least 95 percent modified Proctor (ASTM D1557-00) maximum dry density under the building. All structural fill should be observed and tested for compaction in lifts no thicker than 12 inches.

Structural fill should consist of onsite or similar material, free of organics and other deleterious materials, including boulders and old foundation elements greater than 12 inches in diameter. All imported fill should be approved by GTS prior to its delivery to the site. In general, imported fill should contain not less than 25 percent fines (material passing the No. 200 sieve, based on the minus 3/4-inch fraction), should be well graded, and should have a maximum particle size of 1.5 inches. The Plasticity Index of the fines should not exceed 12 and the Liquid Limit should not exceed 30. If native soils are used as structural fill, a shrinkage factor of about 25 percent should be anticipated due to compaction.

Structural fill should provide adequate support for the proposed structure. The following design and construction details should be observed:

1. Spread footings placed on structural fill should be designed for a maximum soil pressure of **1,500 psf**. This pressure may be increased by one-third for short-term transient wind and seismic loads. Under this pressure the total footing settlement is expected to be about 1 inch. The differential settlement between adjacent footings or for a 25-foot span of continuous wall footing should be about 0.5 inch.
2. The footings should be at least 16 inches wide and founded a minimum of 1.5 feet below the lowest adjacent final grade.
3. Footings and foundation walls should be designed by a structural engineer and should be stiff enough to simply support a span of 10 feet with an 800 pound per lineal foot load applied.
4. Footing excavations should be well compacted using a "jumping jack" type compactor prior to pouring concrete. Footing excavations should be inspected by GTS for loose soils and proper compaction.
5. All structural concrete should have a minimum 28 day compressive strength of 4,500 psi.
6. ASCE 7-16 Site Class D.

Concrete slabs-on-grade should be supported on a minimum of 4 inches of free draining gravel. The slabs should be provided with frequent joints to minimize damage due to shrinkage cracking, and they should be adequately reinforced for the loads to be imposed on the gravel. As a guide, reinforcing steel consisting of Number 3 bar spaced at 24 inches on center, or the equivalent weld wire fabric, for slab reinforcement should be adequate. Slab reinforcement should be designed by a registered structural engineer. The slabs should be separated from all bearing walls with a slip joint. Slabs may be poured monolithically with the footings provided that the owner is aware that differential settlement between the footing and the slab may cause cracking of the slab around the perimeter of the residence.

Exterior concrete flatwork, including walkways and driveways, should be supported on a minimum of 2 feet of structural fill. Surface drainage and irrigation should be directed away from these areas. Infiltration of water could cause differential movement and cracking of the slabs.

Adequate surface drainage must be maintained during the course of construction and after construction has been completed. The ground surface surrounding the exterior of the building should be sloped to drain away from the building in all directions. We recommend a minimum slope of 8 inches in the first 10 feet. Roof downspouts should discharge into solid pipes extended to a minimum of 8 feet beyond the building limits, or preferably, to the street or borrow ditch. Irrigation valve boxes should not be allowed within 10 feet of the building and pool. Improper drainage could cause movement of the building and pool large enough to cause distress.

All site grading and fill operations should be observed by a representative of GTS to determine the adequacy of site preparation, removal of all unsuitable material, compliance with compaction requirements, and to insure that the recommendations presented in this report are properly implemented during construction.

It is the responsibility of the owner/contractor to schedule the appropriate amount of observations and testing as outlined in this report. Failure to follow our recommendations could result in additional fees to verify the work that was performed or to provide additional recommendations.

We recommend that one of our engineers review the geotechnical aspects of the project's specifications and plans prior to submission for bids. This review allows us to check whether these documents reflect the intent of our recommendations. In addition, we could possibly identify contractual provisions that present the owner with an elevated risk of geotechnically related construction "extras."

The analysis and recommendations submitted in this report are based upon the data obtained from one test hole drilled, at the location of the proposed structures as indicated on the Site Plan, Figure 1. This report does not reflect any variations which may occur outside the limits of the test hole. The nature and extent of variations may not become evident until the course of construction and are sometimes sufficient to necessitate changes in the designs; thus, it is important that we observe subsurface materials exposed in the excavations to take advantage of all opportunities to recognize differing conditions which would affect the performance of the facility being planned.

Our findings and conclusions have been obtained in accordance with accepted professional engineering practice in the field of foundation engineering and soil mechanics. This warranty is in lieu of all other warranties, expressed or implied.

It has been a pleasure to assist you with this project. Please feel free to call us if you have any questions.

Sincerely,

BETWEEN

HURRICANE CITY, UTAH

AND

_____

Effective Date:_____

SASO OPERATING AND LEASE AGREEMENT

THIS SASO OPERATING AND LEASE AGREEMENT (which, as amended from time to time, is defined herein as the ("Agreement") is entered into as of the _____ day of _____, _____, by and between the Hurricane City, Utah, a Utah municipal corporation, (the "City") and _____, a _____, (the "Tenant").

RECITALS

WHEREAS, City owns and operates an airport located at 800 W 2300 S Hurricane, Utah 84737 (the "Airport"); and

WHEREAS, City and Tenant desire to accommodate, promote, and enhance general aviation at the Airport; and

WHEREAS, Tenant is qualified to provide services as a single aeronautical service operator ("SASO") as set forth herein and desires to lease certain real property at the Airport for the purpose of operating a SASO concession on the terms provided in this Agreement;

NOW, THEREFORE, in consideration of the covenants and conditions stated herein, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Agreement to Lease and Operate Concession

A. Agreement to Lease Premises. City hereby leases to Tenant and Tenant hereby leases from City that certain real property _____ square feet in size including five feet beyond the hangar pad on three sides excluding the front and located at _____ on the Airport property (the "Premises"). Tenant agrees to accept the Premises "as is" and City makes no warranty as to the condition of the Premises or its suitability for any particular purpose.

B. Disclosure of Soil Condition. City discloses to Tenant that the soil at the Airport is collapsible and otherwise unstable. Tenant is responsible to obtain appropriate soil evaluation reports, to adhere to the recommendations in the reports, and take whatever action is necessary to mitigate the soil condition on the Premises. Tenant is responsible to construct the hangar at the engineered drainage elevations so the drainage will flow properly. Tenant will maintain and keep the area around the Premises clear of debris and obstructions so as not to cause disruption in the expected normal drainage flow.

C. Construction of Tenant Improvements. Tenant shall construct or purchase and maintain continuous improvements on the leased Premises including an aircraft hangar and fixtures as may be necessary for the Tenant's aviation related activities. Such improvements must meet the Airport's Minimum Standards for Commercial Aeronautical Activities and Building Development Standards in effect as of the date of this Agreement. The Tenant agrees to submit plans/drawings of the proposed Tenant Improvements to City within eight (8) months of the execution date of this Agreement. Tenant shall be responsible to obtain and pay for proper building permits for the Tenant Improvements and comply with all the applicable ordinances of the City when planning and constructing the Tenant Improvements. Tenant agrees to complete construction of the proposed Tenant Improvements within twenty four (24) months from the date the building permit is issued.

D. Grant of Concession and Purpose of Agreement. Tenant agrees that it shall have the right, privilege, and obligation to use the Premises for the following purposes: The non-exclusive operation of a SASO concession providing at a minimum the following services (as they may be more specifically required under the Airport's Minimum Standards for Commercial Aeronautical Activities). _____
_____.
Tenant shall provide to City the make, model, and registration number of any aircraft owned or controlled by Tenant, or that are subject to an authorized sublease, that are based at the Premises ("Aircraft").

E. Access. City agrees that if Tenant is not in breach of this Agreement, Tenant and Tenant's employees, officers, directors, subtenants that are approved by City pursuant to this Agreement, contractors, subcontractors, suppliers, agents, invitees, and other representatives ("Tenant's Associates") may ingress and egress across the Airport in the areas designated by City and as permitted by applicable Laws and Regulations, on a non-exclusive basis and to the extent reasonably necessary for Tenant's use, occupancy, and operations at the Premises.

F. Right of Flight and Other Reserved Rights. This Agreement conveys only a leasehold interest in the Premises (and grant of concession) on the terms and for the purposes provided herein, and it conveys no other rights, titles, or interest of any kind. City reserves rights in the Premises including but not limited to, a right of aircraft movement on Airport property, a right of flight for the passage of aircraft in the air, a right to cause such noise as may at any time be inherent in the operation of aircraft, subject to the rules, regulations, and policies as may be adopted from time to time by the City, and rights in water, minerals, oil, and gas.

G. Enjoyments of Rights. Subject to Tenant's complete performance of the payment and other obligations contained in this Agreement, Tenant shall enjoy the rights, uses, and privileges stated in this Agreement.

2. Term. The term of this Agreement shall commence on the date of execution of this Agreement and shall continue thereafter for a term of twenty (20) years until _____, (the "Initial Term"). If the tenant desires to renew this lease, the tenant must notify the City in writing at least 60 days prior to the expiration of the initial term. Upon such notification, this lease shall renew for an additional twenty (20) years at the current lease rate.

3. Rent

A. Rent. For Tenant's lease of the Premises, Tenant covenants to pay to City without off-set or deduction the annual ground as shown in the table below and commencing on the date of execution of this Agreement. All rent shall be due and payable to the City of Hurricane annually in advance, without notice or demand from City, on the 1st day of August. The first years rent payment will be prorated to the next August 1st payment date.

Years	Rent amount per square foot
2022 – 2027	.15
2028 – 2033	.18
2034 – 2039	.21
2040 – 2045	.24

C. Dishonored Checks. If any check paid on behalf of Tenant is dishonored or returned by a bank for any reason, Tenant shall pay all charges assessed to City by the bank plus a service charge of fifty dollars ($50.00) per occurrence (or such other amount as City shall implement from time to time) in addition to other sums due under this Agreement.

D. Past Due Amounts. If tenant fails to pay when due any amount required to be paid by Tenant under this Agreement, such unpaid amount shall bear interest at the rate of eighteen percent (18%) from the due date of such amount to the date of payment in full, with interest. In addition, City may charge a sum of five percent (5%) of such unpaid amount as a service fee, which the parties agree is a reasonable amount to cover the additional costs for billing and collecting arising from Tenants failure to make payment in a timely manner. All amounts due under this Agreement are and shall be deemed to be rent, and shall be paid without abatement, deduction, off-set, prior notice, or demand (unless expressly provided by the terms of this Agreement). City's acceptance of any past due amount either full or partial (or its associated interest or service fee) shall not constitute a waiver of any default under this Agreement.

4. Tenant's Use of Premises and Airport

A. No Interference. Tenant and Tenant's Associates shall not use the Premises or the Airport in any manner that interferes with any operation at the Airport or decreases the Airport's effectiveness, as reasonably determined by the City at its sole discretion. Tenant shall promptly notify City of any use that creates such interference or decrease of effectiveness and remedy the same to City's satisfaction.

B. Comply with all Laws and Regulations. Tenant and Tenant's Associates shall comply at all times, at Tenant's sole cost, with any and all laws and regulations (as amended or otherwise modified from time to time) that are applicable to Tenant's use, occupancy, or operations at the Premises or the Airport (the "Laws and Regulations"), which include but not limited to, the Airport Rules and Regulations, Policies and Procedures, Minimum Standards for Commercial Aeronautical Activities, Utah Code Annotated, the Code of Revised Ordinances of the Hurricane City, the Protective Covenants of the Hurricane City Airport, applicable Federal Aviation Regulations, and all lawful, reasonable, and nondiscriminatory Airport policies and other requirements.

C. No Unauthorized Use. Tenant and Tenant's Associates shall use the Premises and the Airport only for purposes that are expressly authorized by this Agreement and shall not engage in any unauthorized use of the same. Unauthorized uses include, but are not limited to, any use that would damage, interfere with, or alter any improvement; restricting access on any road or other area that Tenant does not lease; placing waste materials on the Airport or disposing of such materials in violation of any Laws and Regulations; any use that would constitute a public or private nuisance or a disturbance or annoyance to other Airport users; the use of automobile parking areas in a manner not authorized by City; fueling activities on the Premises or any other area that City has not authorized; commercial activities except those activities authorized herein, aircraft parking, or storage in areas not leased by Tenant, any use unrelated to the purposes of this Agreement; and any use that would be prohibited by or would impair coverage under either party's insurance policies.

D. Permits and Licenses. Tenant shall obtain and maintain in current status all permits and licenses that are required under any Laws and Regulations in connection with Tenant's use, occupancy, or operations at the Premises or the Airport. In the event that Tenant receives notice

from any governmental authority that Tenant lacks, or is in violation of, any such permit or license, Tenant shall provide City with timely written notice of the same.

E. Taxes and Liens. Tenant shall pay (before their respective due dates) all taxes, fees, assessments, and levies that relate to Tenant's use, occupancy, or operations at the Premises or the Airport and all other obligations for which a lien may be created relating thereto (including, but not limited to, utility charges and work for the Tenant Improvements). Within ten (10) days of notice of any such lien, Tenant shall have the lien removed or deposit with the City cash or other security acceptable to City in an amount sufficient to cover the cost of removing such lien. When contracting for any work in connection with the Premises, Tenant shall include in such contract a provision prohibiting the contractor or any subcontractor or supplier from filing a lien or asserting a claim against City's real property or any interest therein.

F. Damage to Property and Notice of Harm. Tenant, at Tenant's sole cost, shall repair or replace to City's satisfaction any damaged property that belongs to City or City's other Tenants to the extent that such damage arises from or relates to an act or omission of Tenant or Tenant's Associates. Tenant shall promptly notify City of any such property damage. If Tenant discovers any other potential claims or losses that may affect City, Tenant shall promptly notify City of the same.

G. No Alterations or Improvements. Tenant shall not make or cause to be made any alterations or improvements to the Premises or to other areas of the Airport without City's prior written consent.

H. Security. Tenant is responsible to comply, at Tenants sole cost, with all security measures that City, Federal Aviation Administration, the United States Transportation Security Administration or any other governmental authority having jurisdiction may require in connection with the Airport. Tenant shall protect and preserve security at the Airport, including, but not limited to, protecting security information and protecting any access points to the Airport that are maintained by Tenant. Tenant will be vigilant in watching for unusual activity or persons that do not belong at the Airport, and will report such to the Airport Manager or by calling 1-866-GA-SECURE.

I. Removal of Disabled or Derelict Aircraft. When consistent with Laws and Regulations, Tenant shall promptly remove or cause to be removed from any portion of the Airport not leased by Tenant the Aircraft (or any other aircraft that Tenant owns or controls) if it becomes disabled or derelict. Tenant may store such aircraft within the Tenant Improvements or, with the City's prior written consent, elsewhere at the Airport on terms and conditions established by City. If Tenant fails to comply with this requirement after a written request by City to comply, City may (but is not required to) cause the removal of any such aircraft at Tenant's expense by any means that City determines to be in City's best interests.

J. Maintenance, Repair, Utilities, and Storage. Tenant's use, occupancy, and operations at the Premises shall be without cost or expense to the City. Tenant shall be solely responsible to design and construct the Tenant Improvements and to maintain, repair, reconstruct, and operate the Premises and the Tenant Improvements at Tenant's sole cost and expense, including, but not limited to, all utility services, janitorial services, waste disposal, and ramp repair. Tenant shall at all times maintain the Premises and the Tenant Improvements in a condition that is clean, safe, sanitary, and in good repair. Tenant shall perform all work in accordance with Laws and Regulations and in a good and workmanlike manner. City has sole discretion to determine the quality of the work. Tenant shall promptly remedy any condition that

fails to meet this standard. Among other things, Tenant shall not store outside of the Tenant Improvements (aircraft hangar) any inoperable equipment, discarded or unsightly materials, materials likely to create a hazard, trailers (except trailers designed to carry gliders), inoperative motor vehicles, or any other similar items. Tenant is responsible to keep the area five feet out from all four sides of the aircraft hangar clear of weeds and any debris.

K. Operations. Tenant's operations shall comply with the following.

(i) Airport Operations. Tenant shall occupy the Premises and shall operate at a minimum during normal scheduled business hours. Tenant shall operate in a manner that promotes effective Airport operations. Among other things, Tenant shall immediately notify the Airport Manager of any condition observed at the Airport that may create a hazard or disruption; Tenant shall refrain from annoying, disturbing, or impairing Airport customers, tenants, or employees; Tenant shall not divert business to off-Airport locations or engage in discriminatory business practices; and Tenant shall promptly respond to City's requests for information and reasonable assistance in connection with planning and other operational matters at the Airport.

(ii) Concession Service Standard. Tenant's concession shall provide high quality services and facilities in a good and proper manner to effectively meet the needs of the public and City. The privilege to operate this concession shall exist only so long as the character of Tenant's facilities and services are consistent with such standard.

(iii) Complaints. Tenant shall respond in a prompt manner to questions and complaints regarding Tenant's operations when raised by Airport users or by City, and Tenant shall provide a timely resolution of such questions and complaints.

(iv) Emergencies. If City determines for any reason that emergency conditions exist at the Airport, Tenant shall participate in any emergency response as directed by City or other agency in charge and shall operate in a manner that protects safety and the interests of the public.

(v) Safety. Tenant shall maintain appropriate safety items at the Premises as may be required by the City, Local Fire Authority, or other governmental agency, and shall ensure that Tenant's personnel are properly trained in the use of such safety items.

(vi) Personnel. Tenant shall control the conduct, demeanor, and appearance of its employees and Tenant's Associates so they do not annoy, disturb, or impair Airport customers, tenants, or employees. Tenant shall provide the Airport Manager with the name and contact number of a person who is responsible for and has authority to act on behalf of Tenant.

(vii) Deficiencies. Without limiting or waiving any other remedies available to City, City's remedies shall include the following in connection with deficiencies in Tenant's operations.

(a) Propose and Implement Cure. Tenant shall meet with the Airport Manager as he or she may request regarding the quality of Tenant's operations, whether or not in connection with a specific complaint. Tenant shall propose curative measures in response to City's determinations regarding deficiencies in Tenant's operations and shall implement as expeditiously as possible measures that are approved by City.

(b) Remove Employees and Associates. City shall have the right to require Tenant to remove from the Airport any employee or any of Tenant's Associates that City reasonably determines to be in violation any provision of this Agreement or otherwise detrimental to City's interests at the Airport.

5. City's Rights and Obligations

A. Airport Maintenance. Subject to subparagraph C. of this section, City agrees that as long as the Airport is certified to operate as an airport by the Federal Aviation Administration (or any successor agency), City shall keep the property of the Airport in good repair and free from obstruction in accordance with applicable Federal standards.

B. Access to Premises. City for itself and its employees, officers, directors, agents, and other representatives ("City's Associates") reserves the right to enter the Premises and Tenant Improvements at reasonable times and with reasonable notice for any purpose relating to the Airport including, but not limited to, conducting inspections, determining compliance with this Agreement, conduct Airport work, or for emergency purposes, provided that they shall not unreasonably interfere with Tenant's use of the Premises or Tenant's Improvements.

C. City's Right to Relocate Tenant's Improvements from Premises. It is understood and agreed that as conditions may require, the City has the right to require Tenant to relocate Tenant's Improvements from the Premises to a new location on the Airport property, or to a new location at a new airport if the City elects to relocate the Airport, which would be comparable to Tenants current leased Premises. City will pay the reasonable costs that Tenant actually incurs to relocate Tenant's Improvements and any movable property associated with Tenant's permitted uses under this Agreement, to this new location. City agrees to provide the Tenant with a new SASO Operating and Lease Agreement for the new location upon the same terms and conditions as are contained herein for the unexpired term of this Agreement.

D. City Charges. City has the right to impose rates and charges in connection with any matter at the Airport in a manner consistent with Laws and Regulations.

E. City Directives. City is the owner and proprietor of the Airport, and City has the right to issue any lawful, reasonable, and non-discriminatory directive as a landlord and proprietor that City determines to be in City's best interests.

F. Governmental Acts. City is a governmental entity, and City has all rights, powers, immunities, and privileges afforded to it under Laws and Regulations. Tenant agrees that Tenant is subject to any lawful governmental act of City without regard to the provisions of this Agreement.

G. Condemnation. In the event that the demised Premises are condemned by any proper authority, the term of this lease will end on the date that Tenant is required to surrender possession of the Premises. Tenant shall be entitled to that portion of the condemnation proceeds attributable to the fair market value of any Tenant Improvements placed on the Premises by Tenant.

6. Indemnification

A. Indemnity by Tenant. Tenant agrees to indemnify, hold harmless, and defend City and its officers and employees from and against losses of every kind and character (including

but not limited to, liabilities, causes of action, losses, claims, costs, fees, attorney fees, expert fees, court of dispute resolution costs, investigation costs, environmental claims, mitigation costs, judgments, settlements, fines, demands, damages, charges, and expenses) that arise out of or relate to: (i) this Agreement; (ii) any use, occupancy, or operations at the Premises or the Airport by Tenant or Tenant's Associates; or (iii) any wrongful, reckless, or negligent act or omission of Tenant or Tenant's Associates. Tenant shall use attorneys, experts, and professionals that are reasonably acceptable to City in carrying out this obligation. This obligation does not require Tenant to indemnify City and its officers and employees against losses (as defined above) that arise solely from the negligent acts or omissions of City and its officers and employees. The obligation stated in this Section 6.A. shall survive the expiration or other termination of this Agreement with respect to matters arising before such expiration or other termination. These duties shall apply whether or not the allegations made are proven to be true.

B. Waiver. Tenant assumes all risk of the use of the Premises and the Airport, and Tenant hereby knowingly, voluntarily, and intentionally waives any and all losses, liabilities, claims, and causes of action, of every kind and character, that may exist now or in the future (including, but not limited to, claims for business interruption and for damage to any aircraft) against City and its officers, employees, and volunteers arising from or related to Tenant's use, occupancy, or operations at the Premises or the Airport.

7. Hazardous Materials.
